

The **Uni-Pallet[®]** 48 X 48 was developed to meet the demanding needs of grocery and consumer product distributors. This latest generation pallet continues our tradition of inventing solutions that combine advanced thermoforming technology with best-in-class features. The result is a superior pallet that provides strength and durability for traditional or automated order selecting functions.

Uni-Pallet[®] – 48" X 48" Features

- = *New shock absorbing perimeter design virtually eliminates side splitting due to the rigors of side impact and fork truck handling*
- = *New 45° corners increase usable deck to reduce case over-hang & damage*
- = *Nestable with other plastic pallets (twin sheet and injection molded pallets) so you can upgrade your fleet to the Uni-Pallet*
- = *Four-way fork entry for ease in handling with Fork Trucks and Pallet Jacks*
- = *Nestable which results in reductions in warehousing costs and freight costs*
- = *Drain holes in legs to ease in cleaning and deter any collection of liquid*
- = *Easy to clean flat deck surface*
- = *Impervious to weather – including extreme heat or cold and UV Ray protection*
- = *100% recyclable*
- = *Twin Sheet thermoformed construction ensures long life and lowest cost per pallet trip*
- = *Conveyable*
- = *Extremely durable*

Options*

- = *Anti-skid surfaces available*
- = *Custom Color(s)*
- = *Identification Stripes*
- = *Custom company name plate embossing to improve asset identification*
- = *Fire Retardants – Halogen & Deca-Bromine Free*

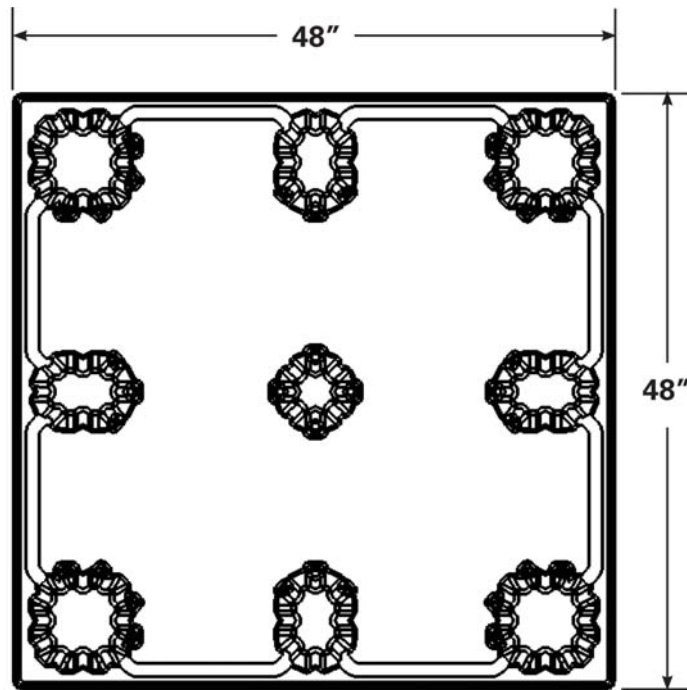

*Available in larger volumes
